

THE BEAT

from the Canadian Heart Function Alliance

Bring together all heart failure stakeholders to improve the prediction, prevention, diagnosis and management of heart failure.

Welcome to The BEAT

We are pleased to present the first edition of our newsletter, The BEAT. It will help network members stay connected by informing us of all the important things happening across our community. The BEAT will be published once a month. We are also launching "The Quick BEAT" to keep you in the loop by informing you on a weekly basis about quick team updates and progress, opportunities available to you as a member of the network, awards received by members and any other important communications. **Don't hesitate to write to us should you have any suggestions or want to share any good news in The BEAT.**
